

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	07 July 2026
Team ID	SWTID-2026-8547
Project Name	Optimizing User, Group, and Role Management with Access Control and Workflows
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	Task Management	The system shall allow users to create, assign, update, and track tasks.
FR-4	Workflow Automation	The system shall automatically trigger workflows when a task is created.
FR-5	Status Update	The workflow shall automatically update the task status to Completed after execution.
FR-6	Notifications	The system shall notify approvers when approval requests are generated.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The interface should be easy to navigate and use for all users.
NFR-2	Security	Access to project data should be protected using role-based access control (ACLs).
NFR-3	Reliability	The system should execute workflows consistently without failures.
NFR-4	Performance	The system should process workflow actions within a few seconds.
NFR-5	Availability	The application should be available whenever authorized users need access.
NFR-6	Scalability	The system should support an increasing number of users and project records.
